1. Datta NR. Nanoparticle based hyperthermia: A clinician's perspective. ESHO 2017, Athens, 23-25 June 2017, p 11.
2. Datta NR, Pestalozzi B, Clavien P, Sienbenhüner A, Puric E, Mamot, C, Reisterer O, Knuchel J, Reiner C, Bodis S, HEATPAC Trial Group. A phase II randomized study of concurrent hyperthermia and chemoradiotherapy vs chemoradiotherapy alone in locally advanced pancreatic cancer (HEATPAC): first information and call for participation (ClinicalTrials.gov Identifier: NCT02439593) ESHO 2017, Athens, 23-25 June 2017, p 56-57.
3. Bodis, S, Puric E, Datta NR, Nine indications for superficial and deep HT therapy jointly with radiotherapy reimbursed by Swiss health care insurances for outpatient therapy from 2017, ESHO 2017, Athens, 23-25 June 2017, p 12-13.
4. Datta NR, Bodis S. Need for multi-centric European trials for combined hyperthermia-radiotherapy. ESHO 2017, Athens, 23-25 June 2017, p 23.
5. Puric E, Datta NR, Eberle B, Meister A, Lomax, N, Marder D, Timm O, Wyler S, Bodis S. Thermoradiation in muscle invasive bladder cancer (MIBC): A Valuable therapeutic option for elderly or inoperable patients, ESHO 2017, Athens, 23-25 June 2017, p 38-39.
6. Datta NR. Pushing Oncologic Hyperthermia into Spotlight: Novel evidence of meta-analysis, 3rd St. Petersburg International Oncology Form, St. Petersburg Russia, June 23-25 2017
7. Datta NR. Radiotherapy infrastructure and human resources: Current status and projections for 2020, 3rd St. Petersburg International Oncology Form, St. Petersburg Russia, June 23-25 2017
8. Datta NR. Pushing Oncologic Hyperthermia into Spotlight: Novel evidence of meta-analysis, DEGRO 2017, Berlin, June 14-17 2017
9. Datta NR, Stutz E, Rogers S, Bodis S. Does androgen deprivation therapy result in lowering the alpha/beta values in prostate cancers? 15th International Wolfsberg Meeting on Molecular Radiation Biology/Oncology Wolfsberg Castle, Switzerland June 17-19, 2017, p79.
10. Datta NR, Stutz E, Rogers S, Bodis S. Does androgen deprivation therapy result in lowering the alpha/beta values in prostate cancers? SASRO 2017, St. Galen, 8-10 June 2017.
11. Stutz E, Liu M, Rogers S, Siebenhüner, Klingbeil D, Singh S, Bodis S. Datta NR. Concurrent chemoradiotherapy in locally advanced cancer cervix: systematic review and meta-analysis. SASRO 2017, St. Galen, 8-10 June 2017.
12. Puric E, Datta NR, Eberle B, Meister A, Lomax N, Marder D, Timm O, Wyler S, Bodis S. Thermoradiotherapy in muscle invasive bladder cancer (MIBC) : a valuable therapeutic option for elderly or inoperable patients. SASRO 2017, St. Galen, 8-10 June 2017.
13. Datta NR, Stutz E, Rogers S, Bodis S. Does androgen deprivation therapy result in lowering the alpha/beta values in prostate cancers? ESTRO Vienna, Radiother Oncol 2017; 123 (suppl 1): s13-14.
14. Datta NR, Stutz E, Liu M, Rogers S, Siebenhüner, Klingbeil D, Singh S, Bodis S. Concurrent chemoradiotherapy in locally advanced cancer cervix: systematic review and meta-analysis. ESTRO Vienna, Radiother Oncol 2017; 123 (suppl 1): s368.
15. Datta NR, Puric E, Klingbeil D, Ordóñez SG, Bodis S. Hyperthermia and radiotherapy in loco-regional recurrent breast cancers: A systematic review and meta-analysis. 34th Annual meeting of Society for Thermal Medicine, Cancun, Mexico, April 29 – May 2, 2017, p 101,(Abs) 2017.
16. Datta NR, Stutz E, Rogers S, Klingbeil D, Siebenhüner A, Bodis S. Locally advanced cancer cervix: A systematic review and meta-analysis of 17 randomized trials to explore the therapeutic evidence for concurrent chemoradiotherapy over radiotherapy alone. ECCO 2017, Amsterdam.
